10.1-inch All-in-One Touch Smart Kiosk with CAMERA

Facial Recognition / Face-scanning Payment / Self-Service

Efficient - Simplified - Secure

GT's 10.1" all in one smart touch kiosk is mainly designed to be absolutely reliable. A customizable enclosure features a 10-inch P-Cap multi-touch screen, along with an advanced structured light 3D camera for face-scanning. The processor RK3399 makes it just as powerful as it is efficient. As an easy-to-use self-service terminal, the GT 10.1" is easy to deploy your software by the android 7.1. Your ideal solution for self check-in & check-out, access control attendance, and gate channel.

Secure & Easy Scanning

Compared to traditional cameras, our advanced encryption structured light 3D Camera makes it pretty fast and precise to support facial recognition, it can help the operations run smoothly and quickly when making face payment in self-service or swiping face at access control attendance point. Purpose-built with high-quality, commercial-grade components and toughened glass for projects where reliability and security are essential.

Recognition / Face-scanning Payment / Self-Service

Connect without Barriers

With Wi-Fi, Bluetooth, and 4G capabilities, the GT 10.1" can get on the readily wireless networks without barriers.

Wi-Fi

Bluetooth

4G
